### ***DETAILED ACTION***

#### ***Reasons for Allowance***

- The allowed claims are 1-11.
- The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not show a connector box having a nut bracket, the nut bracket having a threaded nut molded on it and a first outer wall, a reinforcement member 22 extending downwardly between the first outer wall of the nut bracket and a vertical portion of a circuit bus bar 14 (as best shown in applicant's figure 4) in combination with all the other elements of the claim and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
